FP2030 Commitment

KENYA'S FAMILY PLANNING VISION FOR 2030:

To reap the socio-economic benefits to all citizens through accessible, acceptable, equitable and affordable quality family planning services with zero unmet need for family planning (FP) by 2030.

1. Increase modern contraceptive prevalence rate (mCPR) for married women

The government will implement strategies across demand creation, supply/service delivery, and policy including:

- Implementing HIPs
- Engaging with religious leaders and stakeholders
- Strengthening community level partnerships
- Increasing capacity of service providers
- Improving SRH service delivery and post partum family planning uptake
- Implementing task shifting; Integrating services
- Scaling-up of best practices
- Creating self-care guidelines, and social behavior change communication (SBCC)

2. Reduce unmet need for FP for all women

To address inequalities among counties and sub-counties, the government will:

- Ensure equitable access to FP information and services
- Broaden access and choice of FP at the last mile
- Increase efforts in demand generation
- Reduce stock out at facility level
- Incorporate FP services as part of the essential services package during disaster response
- Ensure continuity of service provision

3. Ensure sustained availability of FP commodities to the last mile

To address challenges in supply chain management the government will:

- Conduct bi-annual review of the national forecast, building capacity for counties to conduct biannual forecasting and quantification of FP commodities; supply planning and quarterly logistics working groups meetings
- Improve the efficiency of national FP supply chain
- Enhance the capacity of relevant health care providers to reduce stock outs
- Ensure inclusive quantification of FP requirements
- Integrate FP information and services within universal healthcare coverage (UHC) roll out
- Implement the Total Market Approach (TMA) and Reproductive Health Commodity Security (RHCS) Strategies

FP2030 Commitment

KENYA'S FAMILY PLANNING VISION FOR 2030:

To reap the socio-economic benefits to all citizens through accessible, acceptable, equitable and affordable quality family planning services with zero unmet need for family planning (FP) by 2030.

4. Enhance the capacity of human resources for health (HRH) to provide FP information and services

- Harmonize and standardize all FP training curriculum and ensure compliance
- Finalize and disseminate key policy documents
- Repackage and disseminate the policy documentation in user-friendly popular versions
- Enhance capacity of HRH to provide FP information and services
- Improve demand and utilization of RH services through effective community mobilization and referral strategies

5. Reduce pregnancy among adolescent girls (15-19 years)

- Employ innovation and technology
- Expand universal access to youth-friendly services that respond to the diverse needs of adolescents in line with the existing laws; Enhance effective referrals for pregnant adolescents to ensure access to skilled care during pregnancy, delivery, and postpartum; Provide PPF for young mothers
- Implementation of age appropriate sexuality education curriculum for in and out of schools
- Establish multi-sectoral teenage pregnancy task forces and develop action plans on ending/preventing teenage pregnancy
- Support interdepartmental/inter-ministry strategies of keeping girls and boys in schools
- Robust SBCC Male engagement on AYSRHR/FP and gender-based violence
- Engage decision makers in AYSRH
- Expand peer learning sessions
- Strengthen youth community-based organizations

Kenya's

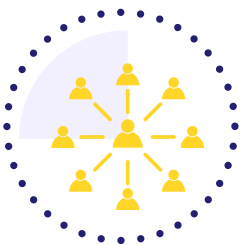

REPUBLIC OF KENYA
FP
2030

FP2030 Commitment

KENYA'S FAMILY PLANNING VISION FOR 2030:

To reap the socio-economic benefits to all citizens through accessible, acceptable, equitable and affordable quality family planning services with zero unmet need for family planning (FP) by 2030.

6. Transform social and gender norms to improve male engagement in family planning and eliminate social-cultural barriers to FP service utilization

To increase the involvement of men as both supportive partners and FP clients, an normalize the use of FP, the government will:

- Involve men in FP decision making through sensitization of health care workers and the community
- Address myths and misconceptions around FP
- Identify champions to promote male involvement in access to FP
- Implement sexual behaviour change communication aimed at increasing demand for FP amongst young people
- Build capacity and tool healthcare facilities to provide vasectomy services

7. Improve availability and utilization of quality FP data for decision making

To document best practices, identify and address challenges, and monitor progress on FP2030 commitments, the government will:

- Align strategic documents to foster a common vision for family planning
- Strengthen the evidence base for effective program implementation; Improve the quality of primary data collected and reported through (KHIS2)
- Ensure ease of accessibility, analysis, visualization and utilization of the data for decision making
- Establish a multi-stakeholder mechanism to monitor and track progress in the implementation of the FP2030 commitments
- Enhance participatory approaches in repackaging of information to promote cross-learning
- Strengthen FP services and supply chain data collection and analysis for data to inform decision making
- Enhance the capacity of government institutions to increase availability, accessibility and utilization of data at the county and sub-county level
- Apply knowledge management techniques to strengthen improved data capture from private facilities into KHIS
- Strengthen CSOs/stakeholders' knowledge management to ensure accurate and effective information delivery
- Strengthen CSO coordination and competitive advantages to ensure that all communities are reached
- Strengthen inclusivity in accountability systems

FINANCIAL OBJECTIVE: INCREASE DOMESTIC FINANCING FOR FAMILY PLANNING COMMODITIES TO COVER 100% OF THE REQUIREMENTS BY 2026

To ensure sustainability and continuation of FP services, the Government of Kenya and development partners have entered into a memorandum of understanding (MOU) to gradually increase its funding for procurement of FP commodities in preparation for donor exit by 2026.

They will also:

- Progressively increase health sector financing
- Ring fence the budget allocation for FP commodities
- Engage with key decision makers in-country to advocate for FP as a development agenda
- Implement timely disbursement and efficient utilization of allocated funds
- Increase Medium Term Expenditure Framework (MTEF) engagement and participation
- Ensure annual resource flow monitoring

Approach to Accountability

Kenya will utilize:

- Existing platforms (FP commodity security steering group, FP TWG, FP advocacy TWG, FP logistics working group (National), CHMT (County level), FP TWG (County level))
- New platform (biennial FP conference/ dialogue (After every two years))
- Social accountability mechanisms (Commodity security TWG, data review meetings, county budget tracking mechanisms, community score card)
- Other accountability mechanisms (DHIS 2, KEMSA LMIS, Track 20 FP module, Surveys - PMA, KDHS, Motion tracker, FP dashboard, National and County RMNCAH score cards (Development of FP scorecard, Medium Term Expenditure Framework and Budget Policy Statement))

The Government of Kenya will utilize data gathered from numerous sources as well as periodic review and consensus meetings with all stakeholders to ensure transparency of accountability. There is a joint accountability process embedded/ anchored in the Global Financing Facility (GFF)/RMNCAH platform, Vision 2030, SDG 2030, AU Agenda of 2063 and the ICPD+25 annual review processes.

COMMITMENT PRINCIPLES:

FP2030 Commitments should...

- Align with the country's other partnerships
- Be grounded in available data and evidence
- Address FP2030's 5 focus areas
 - policy
 - data
 - financing
 - gender norms
 - system responsiveness
- Be developed and validated through an inclusive, equitable, and transparent process
